LONG-TERM, ENGAGED TOP-PERFORMER

Hiring VisionSpark to help find our VP of Ops was the one of the most influential and impactful decisions I have ever made at Premier Allergy. I recommend VisionSpark without hesitation to anyone looking for a search firm.

CEO, PREMIER ALLERGY

It is very important that when we hire candidates, they fit with our company culture and they have the mental capacity to do the job. There are many assessments that can be used to evaluate talent, but I have not seen one as consistent as VisionSpark's. I would absolutely recommend VisionSpark to anyone looking to grow right the first time!
